Tommie Jean-

I reviewed the attached documents for general content. We do not have a public participation specialist assigned to TI. I will defer any comments related to community relations update requirements to DTSC's public participation expert. In genera, I found the document to be informative and well-executed.

I do not have specific comments on the document. General comments: (1) Agnes is listed as the waterboard rep, which is no longer accurate. You have probably caught that by now, though. (2)

There is no definition or mention of FOSETs in the property transfer section although a FOSET has been executed at TI. Please explain why FOSETs were omitted from the discussion.

Has Navy ever considered putting the Administrative Record (or at least some significant documents) online? The Air Force keeps an online AR and it's really helpful. Just a note based on some of the community's comments about communication efforts and the information repository.

I apologize for the delay.
